About Me

Experienced Shopify developer (5+ years) with deep knowledge of Liquid, JavaScript, React, and Shopify API. Specializing in custom theme development, functionality enhancements, and third-party service integrations. Skilled in optimizing store performance and increasing conversion rates through advanced solutions.

Skills

- Shopify theme development and customization (Liquid, HTML, CSS, JavaScript)
- Working with Shopify API (REST, GraphQL)
- Setup and development of Checkout UI Extensions
- Integration of third-party services (Judge.me, Swiper Slider, Metamask, etc.)
- Experience with Klaviyo (email marketing automation)
- Workflow automation using n8n & Shopify Flow
- Performance optimization and SEO
- SPA development with React and WebSocket (Binance API)
- Working with Vite, ApexCharts, Chart.js, Recharts
- Solving CORS issues when working with APIs
- Creating custom filters and product variations in Shopify

Work Experience

Shopify Developer - Evestar (2022 - Present)

Developed and customized Shopify themes according to client requirements.

Integrated Checkout UI Extensions for upsell products.

Implemented dynamic product variation display (color, size).

Created and optimized Swiper Slider with custom logic.

Worked with Shopify API to retrieve and process order data.

Frontend Developer (Shopify, React) - Freelance (2018 - 2021)

Developed a SPA application with React and WebSocket integration (Binance API).

Used ApexCharts and Recharts for price chart visualization.

Created a personal account dashboard for a website builder.

Education

Zaporizhzhia National Technical University - Electrical Machines (2008)
